

# ALSi / REALITi Go - Simulated patient monitor

PRODUCT NUMBER: 1010

## DESCRIPTION:

**REALITi Go** gives facilitators a great training tool and students an incredibly realistic platform to learn from. It offers a medical simulation like never before, built from the technology that is used every day.

Students view a **simulated patient monitor** (with generic displays) on a tablet while the instructor uses a facilitating tablet to control everything. A simple, fast and reliable configuration.

## SKILLS:

- ☑- Create, perform and share simulation scenarios
- ☑- Realistic ECG waveforms presentation
- ☑- Analyse defibrillation characteristics

### MORE THAN SIMULATORS S.L.

Calle de la Hoya, 4 2º  
44570 Calanda (Teruel)  
España

<https://morethansimulators.com>

- ▣- Create ReVel ventilation scenarios
- ▣- DEA characteristics

## CASES AND PATHOLOGIES:

- ▣- Defibrillator screen
- ▣- Monitor screen
- ▣- DEA screen
- ▣- Vital signs screen
- ▣- Simple-wave vital signs screen
- ▣- ReVel ventilator screen

## CHARACTERISTICS:

### **REALISTIC AND RELIABLE:**

- Students view a simulated patient monitor on one iPad while the instructor uses a facilitator iPad to control everything. Simple, quick and reliable set-up.
- Defibrillator, monitor, AED and vital signs monitor screens

### **PORTABLE:**

- Custom designed bag secures the iPad inside its own compartment, giving it the look and feel of a real monitor/defibrillator which can be used anywhere.
- Train anywhere and at anytime
- Access to all normal iPad controls
- Store and charge your facilitator iPad when not in use
- Compartments for lead and accessory storage

### **ECONOMICAL, LEADING THE WAY:**

- ALSi provides highly advanced simulation for far less than the cost of traditional systems and is always up to date.
- Reduced cost and complexity compared to a traditional simulator
- Regular software updates keep ALSi up-to-date
- Using the best of iPad technology

### **SIMPLY ADVANCED:**

- iSimulate developed ActiveWave as the next step in advanced waveform technology. ActiveWave delivers clearer, crisper and more flexible

### **MORE THAN SIMULATORS S.L.**

waveforms than ever before

- ALSi uses complex algorithms to create hyper-realistic displays
- With a simple interface, complex simulations can be created with ease

## INCLUDE:

- ☒- 1 Monitor ipad
- ☒- 1 Facilitators ipad
- ☒- 6 Screen access (software)
- ☒- 2 Power supply chargers
- ☒- 1 Set of accessories (Defibrilators pad, cables, etc)
- ☒- 1 Wifi Router
- ☒- 1 Carrying case
- ☒- 1 Instructions manual
